# About Company

**Quest Innovative Tech Limited** is a privately incorporated company in Nigeria (RC: 6952473), established under the Companies and Allied Matters Act, 2020. Founded in 2023, the company is driven by innovation and sustainability, focusing on energy solutions, solar technology, and agricultural development.

We combine advanced technology with practical expertise to deliver reliable power solutions, support clean energy adoption, and enhance agricultural productivity for communities and businesses.

---

We were inspired by the persistent challenge of inadequate electricity supply in Nigeria and the high cost associated with accessing reliable power. Recognizing how these issues hinder economic growth, limit opportunities, and affect the quality of life for individuals and businesses, we set out to create lasting and affordable solutions. Our drive stems from a commitment to bridge the energy gap through innovative technologies, sustainable practices, and dependable systems that empower people, strengthen communities, and support national development.

We specialize in designing tailored clean energy systems that are carefully crafted to address the specific needs of each client. By combining detailed planning, innovative technology, and a focus on sustainability, we deliver solutions that are both efficient and reliable. Every system is built with long-term performance and value in mind, ensuring that our clients receive dependable power while reducing costs and environmental impact.

# Our Vision

Our vision is to become a leading force in shaping a future where access to clean energy and sustainable agricultural solutions is universal, reliable, and affordable. We aspire to be recognized as a pioneer in driving innovation across the energy and agri-tech sectors, delivering systems that not only solve today's challenges but also anticipate the needs of tomorrow.

We envision a Nigeria and an Africa where communities thrive because power is constant, businesses grow because energy is dependable, and societies prosper because food systems are strong and sustainable. By integrating cutting-edge technology with practical solutions, we seek to reduce dependence on costly, unstable energy sources and replace them with renewable, efficient, and environmentally responsible alternatives.

At the core of our vision is a commitment to sustainability, innovation, and impact. We aim to inspire change by setting new standards in clean energy and agriculture, becoming a trusted partner to governments, businesses, and individuals who share our passion for progress. Ultimately, our vision is to empower people, strengthen economies, and contribute to a greener, more resilient world where opportunities are not limited by energy shortages or food insecurity, but expanded by innovation and possibility.

# Our Mission

---

- ▶ **Deliver reliable and affordable renewable energy solutions.**
- ▶ **Drive innovation in solar technology, power systems, and energy distribution.**
- ▶ **Enhance food security through modern agricultural practices.**
- ▶ **Empower communities by promoting sustainable development.**

Our mission is to transform the way energy solutions are delivered in Nigeria and across Africa by harnessing innovation, technology, and sustainability. We are committed to bridging the gap created by unreliable electricity supply and high energy costs by providing affordable, reliable, and renewable power systems that empower individuals, businesses, and entire communities.

Through solar technology, clean energy infrastructure, and advanced engineering services, we strive to create lasting solutions that not only address immediate challenges but also contribute to long-term economic growth and environmental responsibility.

We aim to deliver excellence in every project by tailoring our systems to the specific needs of our clients, ensuring efficiency, reliability, and value. At the heart of our mission is the belief that access to clean and constant power is not just a necessity but a right that can unlock potential, drive innovation, and improve quality of life.

By combining deep technical expertise with a passion for impact, we aspire to be a trusted partner in advancing energy security, promoting sustainability, and supporting national development goals. Ultimately, our mission is to build a future where energy solutions are not barriers but enablers of progress for Nigeria and beyond.

# Our Services

---

## Electrical & Engineering Services

We provide comprehensive electrical and engineering solutions, covering system design, installation, and ongoing maintenance. Our expertise ensures reliable performance, safety, and efficiency for residential, commercial, and industrial projects.

## Renewable Energy Solutions

We deliver sustainable power systems tailored to client needs, specializing in solar and other clean energy technologies. From acquisition and supply of quality equipment to full implementation, we create solutions that reduce costs and environmental impact.

## Consulting & Support Services

Our consultancy services guide clients in making informed energy and engineering decisions. We offer professional advice, feasibility studies, and project management support, ensuring every solution is practical, cost-effective, and future-ready.

# Why Choose Us

**Certified & Trusted**

**Expertise in Energy & Engineering**

**Tailored Solutions**

**Commitment to Sustainability**

**End-to-End Services**

**Reliable & Cost-Effective**

# Our Projects

At Quest Innovative Tech Limited, we take pride in delivering projects that combine innovation, quality, and sustainability. Each project reflects our commitment to providing clean, reliable, and cost-effective energy and engineering solutions that meet the specific needs of our clients.

From small-scale installations to large industrial systems, we approach every project with careful planning, technical expertise, and a focus on long-term impact. Our work spans across solar power systems, electrical engineering projects, and renewable energy infrastructure, all designed to ensure efficiency, reliability, and value.

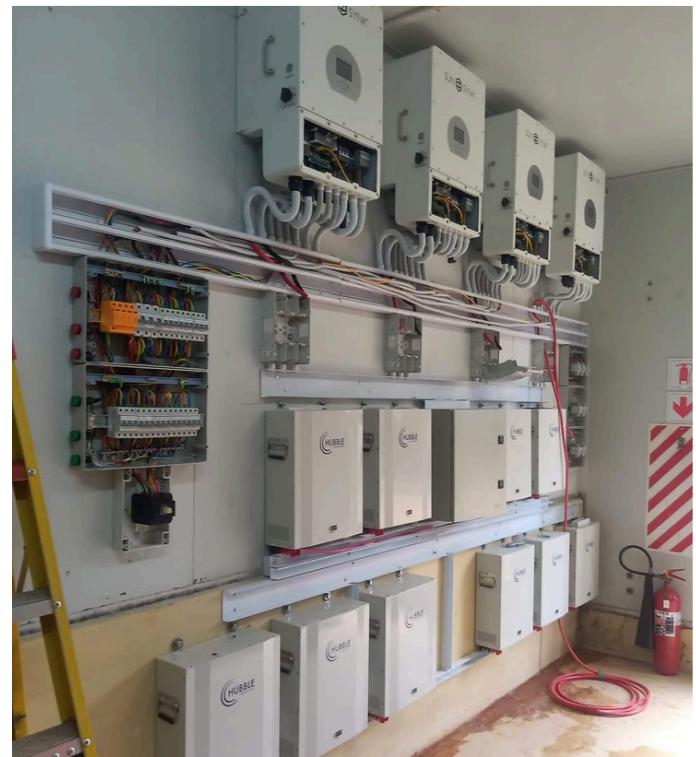

## Types of Projects We Deliver

---

- **Solar Power Installations** – Designing and implementing solar systems for residential, commercial, and industrial clients.
- **Electrical Engineering Works** – Complete electrical design, wiring, and power distribution systems that ensure safety and reliability.
- **Renewable Energy Systems** – Clean energy projects that provide dependable alternatives to traditional power sources.
- **Maintenance & Upgrades** – Ongoing system support, optimization, and upgrades to keep energy solutions running at peak performance.
- **Consultancy & Technical Support** – Expert guidance to help clients plan, design, and implement the most effective solutions.

# Our Team

## **Kolawole Sulayman**

*Chief Executive Officer – CEO*

---

Our CEO is a visionary leader driven to transform Nigeria's energy landscape through innovative, sustainable solutions that empower communities and create lasting impact.

## **Oke Zaid**

*Chief Technical Officer – CTO*

---

Our CTO, a Physics Electronics Engineering graduate with years of renewable energy experience, is passionate about clean power and driven to advance Nigeria's growth through reliable, sustainable energy solutions.

## **Yusuf Muhammed Yusuf**

*Chief Operating Officer – COO*

---

As COO, he drives operational excellence and sustainability, ensuring efficient systems that advance Nigeria's shift toward reliable and clean energy.

## **Gadzama Tikiri Elkana**

*Marketing Representative*

---

As Marketing Representative, he leads strategic outreach and brand growth, promoting renewable energy solutions that inspire trust and drive Nigeria's clean energy transformation.

## **Kolawole Yusuf Adeyemi**

*Administrative Officer*

---

As Administrative Officer, he brings organization and efficiency to the team, ensuring smooth operations and supporting the company's mission to deliver innovative and sustainable energy solutions.
